

VITAL PET ADULT CATS®

Vital Pet provides a complete and healthy diet for your cat, regardless of race, age and level of activity, through products developed to achieve a complete and balanced nutrition.

Proteins of animal origin improve digestion and optimum absorption of nutrients. Both the flavor and the color are natural good ingredients. The cats are happy with the taste of sea foods.

The series has been developed by veterinarians specializing in animal nutrition, always working to generate a product that ensures a healthy and nutritious diet.

Vital Pet is the natural choice for those who know that a tasty and nutritious diet is an important prerequisite for a good life and to achieve a complete and balanced nutrition for your cat.
